### PERSONAL

I am a highly adaptable and motivated IT professional with a diploma certification and a commitment to continuous self-learning to expand my technical expertise. My experience spans mobile app development, web design, Windows GUI development, and PC hardware troubleshooting. I excel at problem-solving and delivering effective solutions, leveraging my ability to plan assignments efficiently and work with diverse technologies. My adaptability enables me to quickly adjust to new challenges. I am seeking a general IT position where I can apply my technical skills, creativity, and problem-solving abilities to contribute to the success of an innovative team.
